

outlasts & outperforms

End Graffiti & Prevent:

- ✓ UV Damage
- ✓ Acid Rain
- ✓ Corrosion
- ✓ Moisture Intrusion
- ✓ Extreme Temperature
- ✓ Abrasion
- ✓ Bird & Animal Wastes
- ✓ Mold & Mildew
- ✓ Salt Fog
- ✓ Peeling & Flaking

Stronger, longer-lasting protection murals, signs & facilities. Invisible Graffiti Defense coating stops stickers, permanent marker, paints and inks from damaging road signs, rail cars, public transportation, walls, and electric boxes. Reduces costs and time allotted to graffiti removal and surface replacement. Great solution for schools, religious centers, business signage and facilities vulnerable to tagging and defacement. Also prevents damage from acid and alkali sources such as urine and food/beverage spills. Non-conductive.

Painted/Coated Metal
Plastics
Printed Signage
Unpainted Masonry
Unpainted/Painted Concrete

Transparent & Lightweight
Non-Sacrificial Barrier
Low Maintenance, Easy to Use

Under 100 VOC
Eco-Friendly
