

outlasts & outperforms

Enduring Legacy

- ✓ Water Repellent
- ✓ Oil & Fuel Resistant
- ✓ Anti-Corrosion
- ✓ Graffiti & Biofilm Resistant
- ✓ High Abrasion Resistance
- ✓ High Chloride Resistance
- ✓ Extreme Durability
- ✓ No Pesticides or Heavy Metals

Submerged, Semi-submerged and Harsh Coastal Environments are no match for Ionyx Marine Coat. Eco-friendly coating resists salt fog and optimizes surface resilience of metal, fiberglass and concrete, even at the waterline. Prevents liquid seepage through concrete pores. Reduces drag and energy needed to move liquid through pipelines. Superior adhesion and abrasion resistance together with effective fouling release corrosion defense extend service life and reduce maintenance structures and ponds for lower cost of ownership and better performance.

IONYX
HOLDFAST
MARINE
COAT

Ultimate Bonding & Durability
Eco-Friendly Fouling Release
Superior Abrasion Resistant
Extreme Corrosion Defense

IMPORTANT: Mix HoldFast Marine & Hull with Ionyx Catalyst (1:1 ratio) before use.

No Copper
No Pesticide
Fouling Release

Structures & Dams
Ponds & Tanks
Offshore Rigs & Pipes
Brine Pits & Road Salt Storage
Piers, Docks & Pilings
Bridges & Railings
Shipyards

Transparent & Lightweight
Non-Sacrificial Barrier
Low Maintenance, Easy to Use

LOW VOC
Eco-Friendly
Non-Carcinogenic
